

Cadence Children's Ministry

## **What is Cadence International?**

Cadence International is an evangelical mission agency dedicated to reaching the United States military communities around the world with the Good News of Jesus Christ. Cadence serves all branches of the military in stateside and overseas locations and ministers not only to military personnel, but to their spouses and dependents as well.

## **Job Description**

Ministry to military families is rich, difficult, and fruitful. Military families move about every three years. That means military children are uprooted often. Add to that the stress of a parent sometimes deployed for months at a time. Military families need support and care!

Cadence Children's Ministry (CCM) sees the need and is honored to serve alongside military chaplains to provide stability and help develop and strengthen a military child's relationship with Christ.

Our staff partner with the chapel to build community for families, and provide events that offer a safe and fun environment for military children. Each program allows them to hear the gospel through Bible lessons, songs, Scripture memory, and games. CCM outreach also extends to the military family and community.

CCM staff open their lives and share the gospel in day to day life with a local community, serving as a stable, safe presence for families and children in the middle of moves, deployments, and other challenges. They come alongside military chaplains and volunteers to reach, disciple, mentor, and mobilize elementary school students who live in a military community.

If you have a desire to share the Gospel and your life with children and embody the love of Jesus Christ through the powerful medium of relational ministry, then Cadence Children's Ministry may be your next great adventure!

Cadence is a *faith-based ministry* requiring their missionaries to raise their monthly support through friends, family, and church community. All appointed staff are partnered with an MPD coach (Ministry of Partnership Development) to encourage and guide them through this process. Staff on MPD get to witness firsthand the generosity of God and His people.

We presently have full-time Cadence Children's Ministry opportunities across the United States, Europe, and Asia. Previous military experience is not required; many of our staff have not served. All of us have hearts for the military.
