About Current

Current Silicon Valley is a nine-year-old growing church startup of over 500 people. We are a young, multi-ethnic community filled with professionals working in tech - many of whom come to Silicon Valley to find career success and are finding life change through Jesus, learning to put the kingdom first in all they do. In a very post-Christian area, our mission is to love God, love one another, and love the world. By God's grace, we've seen many (including those who described themselves as atheist or "anti-church") put their faith in Jesus. The harvest is plentiful, and we're praying for more laborers!
